

Seggiano extra virgin olive oil

Your cupboard is probably full of bottles of things with bits in them – herbs, chillies, peaches, even (in the case of Mescal) worms – that well meaning friends have given for Christmases past. So don't you just long for a good plain bottle of the best olive oil? There are so many to chose from nowadays but you can't go wrong with a bottle of Seggiano. This classic oil is made without the use of pesticides. It is stone-milled, cold-pressed and unfiltered – all in the best tradition. Its delicacy and rich, creamy taste with just a hint of pepperiness distinguish Seggiano from the rest.
